PRODUCT REGULATORY INFORMATION SHEET

18.9 L Tritan Water Bottles

Product Description:

Reusable 5-gallon water bottles manufactured from Tritan™ copolyester resin intended for food and beverage contact applications.

Company information:

SC CONTEC PARK SRL

Spataru Preda str. No. 7B, 05185, Bucharest, Romania

Material Identification:

Material: Tritan™ Copolyester WX500

Product Type: Reusable Water Bottle

Nominal Capacity: 18.9L (5 Gallons)

Intended Use: Drinking water storage and dispensing

Regulatory Compliance:

The above-mentioned products are manufactured in compliance with applicable Good Manufacturing Practices (GMP) and relevant food contact regulations.

The raw materials used for production comply, where applicable, with the following regulations and requirements:

Commission Regulation (EU) 2024/3190 of 19 December 2024 on the use of bisphenol A (BPA) and other bisphenols and bisphenol derivatives with harmonized classification for specific hazardous properties in certain materials and articles intended to come into contact with food

Regulation (EC) No. 2023/2006 on Good Manufacturing Practice (GMP)

Commission Regulation (EU) No. 10/2011 (and amendments up to and including 2023/1627) relating to plastic materials and articles intended to come into contact with food

Regulation (EC) No. 1907/2006 on the Registration, Evaluation and Authorization of Chemicals (REACH) Directive 2001/18/EC and Regulations 1829/2003 and 1830/2003 (Genetically Modified Organisms)

Regulation 1169/2011, Annex II (Substances or products causing allergies or intolerances)

Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC

Allergen Statement:

The product does not intentionally contain allergens.

**BPA Statement:**

Tritan™ copolyester material is manufactured without Bisphenol A (BPA).

Heavy Metals / Restricted Substances:

The product does not intentionally contain restricted heavy metals such as lead, cadmium, mercury, or hexavalent chromium above applicable regulatory limits.

GMO (Genetically Modified Organisms) Statement:

This product is not derived from plant sources and, therefore, is not produced using genetically modified organisms (GMOs) or recombinant DNA technology.

Manufacturing and Hygiene:

Products are manufactured under controlled production and hygiene conditions designed to ensure product safety, traceability, and consistent quality.

Storage and Use:

Products should be stored in clean, dry conditions away from direct sunlight and heat sources. The ideal storage temperature is 25°C.

*Exposure to temperatures of up to 38°C is acceptable for short periods, provided that the products are kept in an area protected from direct sunlight.

**In the event of temporary storage (for the shortest time possible) involving exposure to sunlight or excessive heat (a situation that is not recommended but possible in exceptional cases), it is forbidden for the products to have their caps completely sealed, in order to avoid the risk of pressure buildup inside. In this exceptional situation, the permanent removal of the cap or the removal of its valve, by pushing it inside the product, is mandatory

Disclaimer:

This document is provided for informational purposes only and is based on information available from raw material suppliers and current regulatory knowledge at the date of issue. Users are responsible for verifying suitability for their specific application.
